1. Unidentified Bulgarian armored divisions have been stationed for some time in the Dzhumaya-Petrich area. Two Soviet infantry divisions are posted along side the Bulgarian troops in the Sofia-Dupnitsa-Kyustendil area.
2. The concentration of above troops is allegedly due to regular maneuvers. Yugoslav military men refute this allegation on the basis that the harvest is in full swing and maneuvers are ordinarily held during the second half of August and the first half of September.
3. Soviet officers commanding the Police Corps in Eastern Germany are searching for German officers who participated in the 1949 advance on Macedonia and those who took part in the Greek Campaign, particularly against Crete.
